LogiLink LED Push Night Light w/ PIR-Sensor

Brand : LogiLink

Product code: LED018

Product name : LED Push Night Light w/ PIR-Sensor

LED Push Night Light w/ PIR-Sensor

LogiLink LED Push Night Light w/ PIR-Sensor:

The LogiLink night light with twilight and motion sensor is the perfect solution for anyone who wants a soft light at night without completely illuminating the room. This innovative night light has a slide switch that can be used to set the sensor and off mode as well as the pressure mode. The twilight sensor ensures that the night light switches on automatically when it gets dark and switches off again when it gets light. The motion sensor detects movement within a range of up to 2.5 metres and switches the light on when someone is in the detection area.Switching between the different modes is easy thanks to the practical slide switch, allowing users to adjust the night light to their individual needs. The push mode also makes it possible to switch the light on and off manually, independently of the sensors.
